

**GARDEN GROVE UNIFIED SCHOOL DISTRICT  
GOVERNING BOARD MEMBER**

**NAME: KIM-OANH NGUYEN-LAM**

**OCCUPATION:** Governing Board Member, Garden Grove Unified School District

As an incumbent on the GGUSD Board of Trustees, I'm proud to report that Garden Grove Unified School District is in a better place than when I was elected four years ago. We are changing the old culture of simply handing out high school diplomas to ensuring that our young people can make real life choices upon graduating. Graduates may choose to start in a community college, enroll in a technical/vocational program, or pursue a degree at a four-year university. Those who must work will find employment with better earning potential because of the advanced math and English language skills they have mastered.

The District continues to maintain a positive relationship with our teaching force. We hold high expectation for our teachers, support their instructional needs and compensate them well. Our effective fiscal management affords us to keep all teachers, retain quality instructional programs, and maintain well-equipped classrooms and labs during this economically difficult time. Our administrators and school leaders are hard-working, dedicated and committed professionals.

Our students must be our highest priority because our society's future well-being depends on their successes in school and in life. Thank you for placing your trust in me.
